

Care for Your Banner

When storing your banner it needs to be rolled so that the printed side is rolled against the plain side.

To do this, place the banner down with the printed side up and roll it up. The result will be that the plain side is outer most, and the print side is in.

Please do not fold the banner as the printed surface will stick to itself and may come off, smudging the design.

Enjoy your banner!

Thank you,
